**CAMBRIDGE
PUBLICATIONS**

***The Conference
Company***

We hope that you have enjoyed EUG XI and that you have found the programme and abstract volumes easy to use. We are constantly seeking to improve the service we are able to offer to Geoscience delegates. If you know of any ways in which the submission or presentation of abstracts at EUG could be improved, we would be very grateful if you could let us know.

Similarly, if you are involved in organising a conference in the next two years, and think that Cambridge Publications may be able to help you with your publication, administrative or communications needs, please contact us either by e-mail (conference@campublic.co.uk) or call us on +44 1223 333438.

With all good wishes,
